Description:

Review Do Americans shop too much? Yes, but there's one more thing they should buy-this book, which offers lucid new perspectives on what drives us to the mall.--Barbara Ehrenreich

"Juliet Schor manages to insert a new question into our politics, and not a moment too soon. May the

reactions to her ideas be the beginning of a robust public discussion, not merely an academic discourse. These issues will leap off the page at every reader who has ever wondered about why on earth he's living the way he is."--Bill McKibben

"I read everything that is written by Juliet Schor. The reasons are clear and compelling. She is a fine writer, always has something new and important to say, and always I am persuaded and grateful. So with this excellent piece of work."--John Kenneth Galbraith

About the Author Author of *The Overworked American* and *The Overspent American*, Juliet Schor is professor of economics at Harvard University.
