Description:

Roald Dahl's classic children's novel is now a motion picture from The Walt Disney Company, and this version of **James and the Giant Peach** grew out of the making of the movie. Lane Smith, conceptual artist for the film, has given James and company a new and arresting look, much in the

style of his many highly regarded books, such as Math Curse and The Stinky Cheeseman. Karey Kirkpatrick, the film's screenwriter, created a text that is true to the spirit of Dahl's original, and deftly pulls young readers into the remarkable story. All in all, it's a peach of a book sure to be the pick of every child's bookshelf! --This text refers to an out of print or unavailable edition of this title.

From Publishers Weekly Lane Smith trades stinky cheese for fantastic fruit with his black-and-white illustrations for Roald Dahl's classic 1961 novel, James and the Giant Peach. The reissue is timed to coincide with the release of the Disney animated motion picture based on Smith's suitably subversive visual interpretation.
