Description:

The updated NFPA 101® Life Safety Code® raises occupant safety to a new level. Protect people where they live, work, and play with NFPA®'s Life Safety Code -- the most widely used source for strategies for occupant safety throughout the life cycle of a building. As the built environment and risks evolve, so do the challenges to protect people from fire and related hazards. The 2015 Life Safety Code provides a flexible approach that adapts to nontraditional use of buildings; innovative designs; and new technologies, materials, and construction practices. It is the only document that addresses life safety in both new and existing structures. There's no substitute for the latest NFPA 101 in any occupancy -- from assembly to health care, industrial, and residential. Essential for

architects, engineers, building owners and building managers, hospital administrators, and AHJs, NFPA 101 covers it all: Egress, sprinklers, alarms, emergency lighting, smoke barriers, and special hazard protection. Essential for architects, engineers, building owners and building managers, hospital administrators, and AHJs, NFPA 101 covers it all: Egress, sprinklers, alarms, emergency lighting, smoke barriers, and special hazard protection. Changes in this edition of the Life Safety Code advance safety and improve options for building design. Other changes help provide for safer, more homelike health care facilities. Make sure your knowledge is up-to-date and your facilities meet code. Base your decisions on the 2015 NFPA 101 and tackle safety challenges effectively. (Softbound, 520 pp., 2015)
