"The artwork inside the book is gorgeous. These paintings depict many famous scenes, such as those from the ... Earth-Romulan War. There's no quick pasting of a screenshot from one of the TV shows here. Even scenes that could have easily been done this way have been rendered in pencils and inks, giving the book a consistent feel. The starship pieces are easily my favorite. I'd really like a desktop wallpaper of the "Starfleet's Greatest Vessels" piece."

"Without question, fans will want this and love this. This book is as indispensable as the Star Trek Encyclopedia, Chronology, or series' Companions. My hope is that there will be a follow up volume focusing on the 24th century. This is worth owning. Overall grade: A-"
