#### Description:

**Review** Illustrated with precise drawings in color, this excellent reference presents an encyclopedia of objects from the manmade and natural world with their names presented in English and Spanish. The parts of the objects are clearly identified in each drawing; readers learn all the parts of anatomy, for example, of humans, insects, and animals; or all the parts of Greek temples, Egyptian

pyramids, and high-speed trains. The material is clearly organized by category. (*Book News* 2011-06-01)
