Description:

Back by popular demand with more than 300,000 copies sold, the Cornell Lab of Ornithology is

proud to re-release the widely acclaimed and bestselling bird audio field guide series, *Backyard Birdsongs*, from award-winning Ornithologist and Author, Donald Kroodsma.

Backyard Birdsongs is an interactive handbook of birds and their songs for beginning bird-watchers. With a touch-button electronic module housing common vocalizations of 75 species from across Eastern and Central North America, this volume offers a truly sensory way to identify and get to know local birds. Crisply detailed and scientifically accurate illustrations accompany each entry, and up-to-date range maps provide clear geographical reference points. Complete with an introduction to birdsongs that will inspire readers to look out their kitchen windows and venture out in the field, this unique book provides an exciting entryway into the subtle art of birding.

This second edition includes a much-requested new Sound Track Index (to help make watching and listening to birds easier), and a free download of the Cornell Lab's own MERLIN™ Bird ID App (on iTunes and Android stores).

And as with all Cornell Lab Publishing Group books, *35% of the net proceeds* from the sale of *Backyard Birdsongs* supports projects at the Cornell Lab, such as children's educational and community programs.
