Description:

Book Description Whether stuck on autopilot or totally off course, *What Would a Wise Woman Do?* provides a roadmap for today's woman back to a more authentic and joyful life. Laura Atchison had it all—a great career, ambitious goals, and loving family—when she realized she was off course. By

digging deeper, she discovered she hadn't been asking herself the right questions—and as a result, had been living the wrong answers. By revealing her riveting and candid story—including mistakes she made along the way—Atchison provides practical lessons on how to be a more wise and fulfilled woman by asking the right key questions in career, family, relationships, spiritual life, finances, and more.

About the Author Laura Atchison is a speaker, author, and founder of Wisdom Learned, LLC—a consulting company specializing in educating and inspiring entrepreneurial leaders to get off autopilot and find success.

Previously, Laura used her 29+ year experience in both Fortune 100 and small businesses to launch and sell her own highly-competitive IT company—garnering her recognition and coverage from national industry publications and associations as a leading provider of managed technology services.

Besides holding numerous technical degrees and serving on multiple charity and corporate boards, Laura holds a masters degree in management and organizational behavior. Her business and life philosophy gleaned from her diverse experience and lessons learned in the trenches is simple: Treat everyone better than they expect to be treated—while collecting and dispensing wit and wisdom to grow along the way. And always ask the right questions.
